

Need to verify official driver license status, vehicle insurance, or vehicle registered owner? It's better to know us and not need us than to need us and not know us. CIC has a unique driver's license and insurance verification DEVICE to obtain an official police report and other documents for insurance investigation purposes.

An excellent tool for rent a car companies or car dealerships to avoid renting and selling vehicles to customers with suspended licenses. An effective insurance verification tool with convenient customer service hours and electronic verification provided for most states.

Driver license verification avoids renting to customers with suspended licenses

Effective loss control and claim reduction tool

Vehicle owner and vehicle insurance coverage verification service

Insurance and license request accepted by e-mail, fax or telephone

Convenient customer service hours to accommodate your operational needs

Electronic verification provided for most states with excellent turnaround time

“A DEVICE that’s better to have and not need...then to need and not have!”
